

# Announcements

- Homework 1
  - Due on Monday night
  - Please start each problem on a new page
  - Please when you upload to Gradescope accurately tie which pages correspond to which questions
- I'll may be around some Monday afternoon if you have questions, or use Campuswire
- Wed Reading: Ch 2, Section 1
- Physics Tea at 3 today! (I think?!)

# Sympy Tutorial

- Grab the “Learning Sympy” tutorial off the webpage (under Computation).
- Page that opens just previews it, click the download button in the upper right to download it to your system
- Launch Jupyter, and then open the notebook
- Approximately 8 cells throughout that you need to add code to!
- Export to pdf via some method and submit to Gradescope
